

CURRICULUM VITAE

WONG Hung

Associate Professor (Teaching), Department of Social Work

(Updated in March 2024)

HIGHLIGHT

- Graduated from the Department of Social Work at the Chinese University of Hong Kong in 1984, I am grateful for joining my alma mater since 2002. First taking up the post as an Assistant Professor in Department of Social Work in 2002, I was promoted to the post of Associate Professor in 2008.
- I love teaching and enjoy sharing my values, knowledge and life experiences with students. Enabling and facilitating my students to become an independent, humane and reflective person with social awareness and critical thinking through formal as well as informal education is my mission.
- I am productive in academic publication activities. Since 1994 when I became an academic, I have published 91 externally refereed journal articles of which 60 articles are included in Web of Science Core Collection (58 SSCI, 19 SCIE, 6 ESCI) while 6 articles are included in Chinese Social Science Citation Index (CSSCI). I have published 23 professional journal papers, 3 books, 55 book chapters, 15 consultancy reports, 10 research monographs, 63 conference papers and 36 articles in newspapers and magazines.
- I have been successful in applying for funding to support my academic and applied policy research. Since 1994, as a Principal Investigator, I have received HKD 16.8M for 37 research projects, including HKD 4.2M (3 projects) from the Research Grants Council, HKD 6.3M (11 projects) from public bodies, HKD 3.9M (16 projects) from NGOs and HKD 2.4M (7 projects) from the universities. As Co-investigator, I have received HKD 35.6M (14 projects) of which HKD 32.4M (9 projects) from universities. In total, I have received HKD 52.5M research grant since 1994.
- I am committed to enhancing knowledge transfer to the public. I have frequently been interviewed by print and electronic media to demonstrate the results of my applied research studies. I have been interviewed and reported in 188 media exposure events since September 2013 while invited by more than 92 organizations or institutions to deliver talks and trainings since September 2013.
- I set up the Good Impact Assessment Institute (GIA Institute) in 2018 with support of the Sustainable Knowledge Transfer Project Fund of the CUHK. The Institute supports social enterprises and NGOs by conducting Social Impact Assessment (SIA), program evaluation and research services. In the Annual Report 2019-2020 of the University Grant Committee (UGC), GIA Institute's achievement was reported as one the three impact cases of knowledge transfer.
- In the Research Assessment Exercise (RAE) 2020 organized by the University Grants Committee, my impact case "Improving the Lives of the Working Poor in Hong Kong Since 2013" was rated as a 4-star case. As only two impact cases of social work departments in Hong Kong achieved the 4-star rating, it shows that the social impact of my research was highly recognized by the UGC.
- My outstanding performance in teaching, research and service demonstrates that I am a committed, prolific and all-rounded academic with creative ideas and positive attitudes towards my teaching and research. I am enthusiastic about integrating my teaching, research and applied works in the coming years of my career life.
